Summary of Feedback

15st March 2022

- The website's highlighted project view is good.
- It is necessary to inform the audience about which SDGs are being used in the project.
- Scrolling functionality was an excellent idea.
- Please contact us option is suitable for the entire website rather than a specific page
- It is a good idea to include the coordinators' profiles.
- The download option is a fantastic idea.
- Sharing SDG information on the website is a great idea because users may not be familiar with the specific goal's details.
- It is preferable to display as much information as possible on the website.
- Make it simple user-friendly.
- It is preferable to have a button and a drop down filter option to view/display the results rather than a limited search option.
